Art Unit: 1614

Claim 11-59 are drawn to compositions and method for treating leukemia employing an enhanced combination of a compound of formula I and a chemotherapeutic agent such as doxorubicin. Applicants state on page 22, lines 9-11 that this "combination extends the survival time of the mice substantially ^{are} compound to either single agents B-L-oddC and Doxorubicin." Applicants are, therefore required to elect a single enhanced combination of one compound of formula I with one chemotherapeutic agent.

The several inventions above are independent and distinct, each from the other, as they have acquired a separate status in the art of treating leukemia as a separate subject matter for inventive effect and require independent searches. It is noted that a reference to one enhanced combination of drugs would not be a reference to another enhanced combination of drugs under 35 U.S.C. 103. Further, the claims read on a multitude of enhanced combinations of drugs which would require many field of searches that would be an undue burden on the Examiner. Therefore, restriction for examination purposes is proper.

Applicants are required to make a provisional election even though this requirement is traversed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerome Goldberg whose telephone number is (703) 308-4606. The examiner can normally be reached on Monday-Thursday 9:00 A.M - 3:00 P.M.
